Brighton Beach Motordrome Track Has Been Improved So Next Event Need Not Be Stopped-Permit Issued for Suffolk County Contest-Other News. Ten cars-eight American, one Italian

g'clock Friday night in the Motor Racing cistion's second twenty-four hour race of this season on the Brighton Beach Motor-drome. The official numbers of the cars and the drivers who will have charge of them are as follows: 1-Renault, Charles Basic and Louis Raffalovitch; 2-Palmer and Singer, Ray Howard and Frank Lescault; 3-Acme, Cyrus Patschke and H. A. Van Tine: 4-Acme, Frank Dearborn and a driver to be selected; 5-Lozier, Harry Cobe and William Heina; 6-Stearns, Ralph Mulford and Laurent Grosso; 7—Houpt, George Rebertson and Al Poole; 8—Allen Kingston, Hugh Hughes and Frank Lawwell; 9—Fiat, Ralph De Palma and E. H. Parker; 10— Rainier; Louis A. Disbrow and Charles H.

With a greatly improved course to drive greatest mileage in any one hour, it ?" xfor a one mile track will be made by the winning combination. George Robertson, who with Al Poole as his team mate won month's race with the Simplex, predicts that more than 1,200 miles will be trav-elled in the twice around the clock coniest. A. B. Cordner, chairman of the Motor Racing Association's Brighton Beach committee, says the track is in fine condition and there will be no need of stopping the twenty-four hour race at any time for the purpose of rolling or repairing the track. After its second reconstruction, he thinks the track surface will be as good at the finish of the long contest as at the start. The final sprinkling with the dust laying mixture was done yesterday and contestants will practice this morning.

The Fiat, Palmer and Singer, Lozier, Stearns, first Acme and Rainler were com-The Fist, Palmer and Singer, Lozier, Stearns, first Acme and Rainier were competitors in last month's twenty-four hour race at Brighton Beach. The Houpt, Renault, Allen-Kingston and second Acme will be making their first appearance this year, though both the Renault and the Allen-Kingston have competed in former twenty-four hour events. The Houpt is a braid new car, but will have many admirers on account of being handled by Robertson and Poole, both of whom are capable and experienced. Raiph Mulford, who was one of the team of the Lozier that won the first Brighton twenty-four hour race last year, will be making his first appearance as a Stearns pilot.

Harlan W. Whipple, a former governor of the Automobile Club of America and well known as a racing enthusiast, has consented to act as referee for the events on Friday and Saturday. He will take the place of A. R. Pardington, whose business will prevent him from serving again. The rarries for the mig hour race for stock cars selling for less than \$72,500 and the other short distance events will not be announced until after the receipt of this morning's mail.

intil after the receipt of this morning's mail.

Formal permission to use the roads of the Riverhead circuit for a stock car race on September 21 was granted to the Motor Contest Association by the town boards of Riverhead and Southold at a joint meeting held yesterday morning at Riverhead. The vace in Suffolk county is to be a sweep-stakes event of practically the same character as the Motor Parkway Sweepstakes held over the Vanderbilt cup circuit last fall. A. D. Corwin of Riverhead, an officer of the Motor Contest Association, represented his organization at the meeting and made the arrangements with the members of the two town boards for preparing the roads included in the race circuit.

The Motor Contest Association will file bond of \$25,000 to guarantee the town authorities against any damage that may be done to the roads or individuals during the race. The association will supply the town officials with oil or some other suitable mixture to be sprinkled on the roads to put them in condition for racing and to prevent dust. The town boards have agreed to permit contestants to practice of the face of cuit for ten days before the contest, between the hours of 5 and 7 o clock in the morning.

the Mower trophy being awarded to one of the three Moline runabouts. His point is that the Pierce car No. 108 bent its tamp process and smashed its tail lamp, but was not penalized and did not carry the lamp for part of the tour. The following statement by Mr. Van Der Voort was issued vesterday by the American Motor Car Manufacturers Association, Mr. Van Der Voort being a member of the A. M. C. M. A. commistee of management:

I dielike very much to be involved in a protest of any sort, but many of the contestagts in the tour almost demanded it and f think my interest in the Moline and in fair play warrants it. Feeling that the text of my protest against the finding of the technical committee in the final inspection of the Glidden tour cars at Kansas City should emanate from the office of the chairman, Mr. Hower, I have until this time refrained from giving out same.

Noting, however, that an erroneous report has cone to the effect that Moline car 104 was protesting the decision on the grounds of Pierce car 108 not carrying a tall light, we feel that this impression a tall light, we feel that this impression the flow as protesting the decision on the grounds of Pierce car 108 not carrying a tall light, and my protest is based upon the Tact that this tall lamp was completely demolished and the bracket considerably beat.

Penalties were provided for deterioration and scoording to the rules car 108 should have been penalized to the extent of the price of a new lamp and the labor required to straighten the tail lamp bracket. Moline car 104 was required to light its oil lamps, proving condition. This would have been penalized to the basis of material and labor in repairing bracket and replacing lamp it would alter the final accore in my favor.

I have no criticism whatever as to the findings of the committee upon penalties were levied, are from the operative standpoint of very much less importance.

In the case of the protest against the perfect score Glidden car the public have been led to be leve that the was based

ing cars they would both have suffered the same fate as beful the two roadsters."

The second annual run around Long Island, or mechanical efficiency tour as at is also atyled, is to be held on September 24, 21 and 22. As was the case with the event last year, the rus will be held under the auspices of the New York Automobile Trade Association. This year the tourists will not follow the south road, as they did in 120%, but will drive down through the centre of the Island. Orient Point being the day's destination. The cars are to be parked at Greenport and the tourists will spend the night at Shelter Island, where one of the hotels will be kept open ten days after its regular season in order to accommodate the party. It is likely that the party will stop for luncheon at Smithtown on the way to Orient Point.

The tourists will have early breakfasts on the morning of the second day and will drive to Riverhead in time to reach that noint before the start of the Long Island Stook Car Derby. Seats are to be reserved for the tourists in the grand stand, as well as parking spaces for their cars. After the race is finished, which is expected to be about 10 clock, the tourists will have lunch at the grand stand and drive to Amagansett. No attempt will be made to visit Montauk Point on eccount of the uncertain roads is ading to that place and the tourists will return to Southampton or Good Ground for the night.

NIMBUS WINS THE AMSTERDAM

ODOM'S FAST MORSE RUNS A MILE IN 1:38.

Only Successful Favorite at Saratoga -Cherryola, Prince Ahmed and Donald MacDonald Take the Handleaps The Wrestler and Ten Paces Win.

SARATOGA, Aug. 24. - Form players were in the air again to-day, as five favorites failed to make good. The Amsterdam to windward, as George Odom's Nimbus. backed down to 4 to 5, won in a gallop. Nimbus led from start to finish, holding the others safe all the way, and when he breezed past the judges the timekeeper hung out 1:38 for the distance. The Montpelier Stable's Beaucoup, 5 to 2, had an easy time

gin over Bonnie Kelso, 2 to 1. Console, 4 to 5 favorite, was outrun from the start.
Prince Ahmed, 4 to 1, picked up 120 pounds in the handicap at seven furlongs and won after a great exhibition of gameness. Flening and Dreamer out out the early pace until the former stopped. Then Taplin called on Prince Ahmed, and with a tremendous rush he caught Dreamer in the middle of the stretch and won by a length in a drive the time being 1:25 2-3. Simcoe, a 40 to 1 shot, also closed rapidly and took the place from Dreamer by a couple of lengths. Mary Davis, 9 to 2, after being shut off finished a head out of the money. Apache, 16 to 5, and Sir John Johnson, the top weight, had no speed.

High Range, 9 to 5 favorite, and Arasee, 12 to 5, got no part of the money in the handicap at a mie. This event was captured by Donald MacDonald, a 12 to 1 shot, who caught Fort Johnson, 12 to 1, at the last furlong pole and beat him handily by two lengths in 1:30 1-5. The Squire, 5 to 1, was third, two lengths away. High Hange stopped after chasing Fort Johnson for a half mile, and Arasee was always a trailer.

Another favorite, H. P. Whitney's Equation, 13 to 5, could not get out of the ruck in the last race, for maiden two-year-olds, seven furlongs. Ten Paces, 3 to 21, on the other hand, had enough speed to dispose of Flofield early and then win, ridden out, by three lengths in 1:28. Top Notch, backed down to 7, was second and Dixie Dixon, 4 to 1, took third money. There was a liberal play on Radation, but it got nothing, Grand again rode two winners. The summaries:

Wagner and his fellows didn't carry that point, but Honus ventud his spite by lifting a tremendous home run into the left field seats. Miller, Abstein and Wilson singled in succession, Miller scoring.

When Mathewson came in the situation was this: A man on second, one on first and none out. Rather squally, but it didn't faze Matty, first swinging at the ball, then trying to lay it down. Neither move worked, and he hit out at the next one. The ball hopped to Devlin, who touched third for a force of Miller and threw across to Merkle and doubled Gibson. The eestatic crowd was hardly through ecstating before Hyatt Struck out.

another two bagger.

The Giants handed the Pirates two runs in the seventh. A base on balls, a poor in the seventh. A base on balls, a poor throw by Merkle of a force, a double steal, a must of the Larry Doyle persuasion and amoutfield fly contributed toward the two runs: Merkle and Wilson made hits in the ninth and Meyers's fly to Leach brought Merkle to the plate. tween the Highlanders and Browns yester-day, but all the scoring done was by the Browns. The hilltoppers have lost three games and won one so far on this trip. By beating the Athletics the Detroits tied the Mackmen for first place. The Bostons are staying right up there, too, beating the White Sox. The Washingtons played up to form and were shut out by the Cleve-

ST. LOUIS (A. L.), 3; NEW YORK (A. L.), 0. St. Louis, Aug. 24.—The New York Americans arrived here in bad shape to-day and lost to the Browns by a score of 3 to 0. New York secured but two hits off Pelty, the first by Austin in the second inning and the second in the ninth by Keeler. Several fast fielding plays cut of a number of seemingly safe drives by the Highlanders. In Hal Chase's place at first base, Knight In Hal Chase's place at first base, Knight played a creditable game. In place of Kid Elberfeld at short Stallings was forced to place Cree, an outfielder, whose throw to first in the second inning was high and proved costly to New York. Joe Lake really lost the game. He has generally puzzled the Browns with his delusive spit ball, but was easy for St. Louis in the first three innings to-day when the St. Louisans scored three runs. Thereafter there was nothing doing for the Browns.

Hartzell scored in the first on his single, Stone's single, a hit on Hoffman's leg by Lake and Griggs forcing out Hoffman at second. Criger scored in the second on his and Pelty's singles and Cree's wild throw to Knight. Hoffman scored in the third on his walk, Schweitzer's single and Ferris's grounder to Austin.
